1. Project Overview

Kiranam is a role-based mobile application designed to digitize and streamline the complete contributor management ecosystem of the organization. The platform aims to eliminate manual tracking, paper-based reporting, and fragmented communication processes by providing a centralized digital platform for contributors, volunteers, and administrators.

The application combines contribution management, fundraising campaigns, volunteer management, payment processing, automated communication, reporting, and analytics into a single unified ecosystem.

Primary User Roles

Contributor (User)	Individuals who make monthly contributions and campaign donations.
Volunteer	Approved members responsible for managing and following up with assigned contributors.
Administrator	Organization management team responsible for platform operations and communication management.

All roles operate within a single mobile application using role-based permissions and access controls.

2. Project Objectives

- Simplify monthly contribution collection.
- Improve volunteer engagement and management.
- Automate communication workflows.
- Increase fundraising efficiency.
- Improve campaign visibility and participation.
- Provide real-time reporting and analytics.
- Reduce administrative workload.
- Enable contributor growth through volunteer referrals.
- Improve transparency and contributor engagement.
- Maintain complete digital records of contributions and communications.

3. Platform Architecture

Platform Type	Mobile Application (iOS & Android)
Architecture	Role-Based Access Control (RBAC) with three distinct user roles
Backend	Serverless architecture powered by Supabase
Communication	Multi-channel: In-App, WhatsApp Business API, Email
Payment	Razorpay payment gateway integration

4. Technology Stack

Category	Technology / Service
Frontend Framework	React Native with Expo
Language	TypeScript
Backend Platform	Supabase
Database	Supabase PostgreSQL
Authentication	Supabase Authentication
File Storage	Supabase Storage
Serverless Logic	Supabase Edge Functions
Payment Gateway	Razorpay
WhatsApp Messaging	WhatsApp Business API
Email Service	Resend
Receipt Generation	PDF Generation Service

5. User Module

5.1 Registration & Authentication

Registration Fields

- Full Name
- Email Address
- Mobile Number
- Password

Referral Registration

If registration occurs via a volunteer referral link, the referral code is captured automatically and the user is assigned to the respective volunteer.

Direct Registration

If no referral link is used, the system automatically assigns the new user to the volunteer with the fewest assigned contributors (load balancing).

Authentication Features

- Login
- Forgot Password
- Password Reset
- Email Verification

■ Only verified users can access application features.

5.2 Dashboard

- | | |
|------------------------------|--------------------------|
| • Current Monthly Commitment | • Notifications Preview |
| • Contribution Status | • Quick Pay Option |
| • Next Due Date | • Total Contributions |
| • Recent Contributions | • Campaign Contributions |
| • Active Campaigns Preview | |

5.3 Monthly Contribution System

Rs. 30 (Minimum)	Rs. 50	Rs. 100	Rs. 250
Rs. 500	Rs. 1,000	Custom Amount	

Monthly Commitment Logic

Contributors select a monthly commitment amount. Reminders are sent based on that commitment. A contributor may pay any amount equal to or above their commitment. The commitment amount remains unchanged unless manually updated by the contributor.

Scenario	Detail
Monthly Commitment	Rs. 100
Payment Made	Rs. 150
Record Stored	Rs. 150 (actual payment)
Future Reminders	Rs. 100 (unchanged until user updates)

Contribution Statuses

Status	Description
Active	Receives reminders and all communications.
Paused By User	No reminders or follow-ups until user reactivates.
Paused By Admin	No reminders or follow-ups until admin reactivates.
Archived	Excluded from active counts; historical records preserved.

5.4 Payment History & Profile

Payment History Displays

- Date
- Amount
- Transaction ID
- Payment Status
- Receipt Download

Profile — Editable Fields

- Name
- Phone Number
- Address

■ Email address is linked to authentication and cannot be changed in-app.

6. Campaign Management

Campaign contributions are entirely separate from monthly contributions.

Campaign Structure

Campaign Name	Unique identifier for the campaign.
Description	Detailed campaign overview and objectives.
Target Amount	Fundraising goal in Indian Rupees (Rs.).
Raised Amount	Real-time total of donations received.
Campaign Media	Posters, images, videos, and banners.
Progress Status	Active, Draft, or Completed.

Campaign Features (Contributor View)

- View active and completed campaigns
- Track fundraising progress
- Make campaign donations via Razorpay
- View media gallery

Progress Tracking

- Target Amount
- Raised Amount
- Progress Percentage
- Visual Progress Bar

Progress data is updated automatically after every successful donation.

7. Campaign Media Center

Media Types Supported

- Posters
- Images
- Videos
- Banners
- Promotional Assets

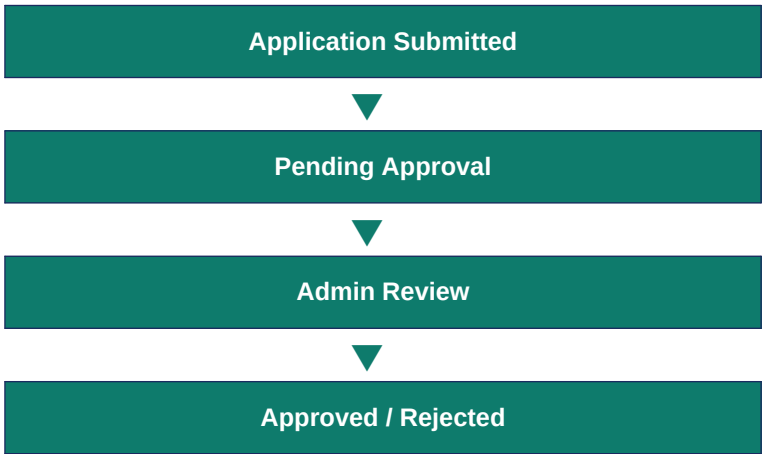

Visibility & Actions

Who Can See	Available Actions
Contributors	View, Download, Share
Volunteers	View, Download, Share
Administrators	Upload, View, Download, Share, Delete

Sharing is performed using the user's personal WhatsApp and social media applications.

8. Volunteer Module

8.1 Volunteer Registration & Approval Flow

8.2 Volunteer Dashboard

- Assigned Contributors
- Pending Contributions
- Overdue Contributions
- Referral Statistics
- Notifications

8.3 Assigned Contributors View

Volunteers can view only the contributors assigned to them. Each contributor card displays:

- Name
- Contribution Amount
- Contribution Status
- Last Payment Date
- Next Due Date

8.4 Follow-Up Center

View Sections	Actions Available
---------------	-------------------

• Due Today • Overdue Contributors • Follow-Up Queue • Follow-Up History

• Call Contributor • Send Reminder • WhatsApp Contributor • Add Follow-Up Notes

8.5 Referral Center

Each volunteer receives a unique referral code and link to grow the contributor base.

- Referral Code
- Referral Link
- Copy Link
- Share Link
- Total Referrals Count
- Active Referrals Count

9. Admin Module

Administrators have complete system control across all modules.

9.1 Admin Dashboard

- Total Contributors
- Total Volunteers
- Active Campaigns
- Monthly Collections
- Pending Contributions
- Communication Statistics
- Collection Funnel
- Recent Activities

9.2 User Management

- Create User
- Edit User
- Pause User
- Resume User
- Archive User
- Assign Volunteer
- Reassign Volunteer

9.3 Volunteer Management

- Approve Volunteers
- Reject Volunteers
- Manage Assignments
- Monitor Activity
- View Performance Metrics

9.4 Campaign Management (Admin)

- Create Campaign
- Edit Campaign
- Deactivate Campaign
- Upload Campaign Media
- Monitor Campaign Performance

9.5 Payment Management (Admin)

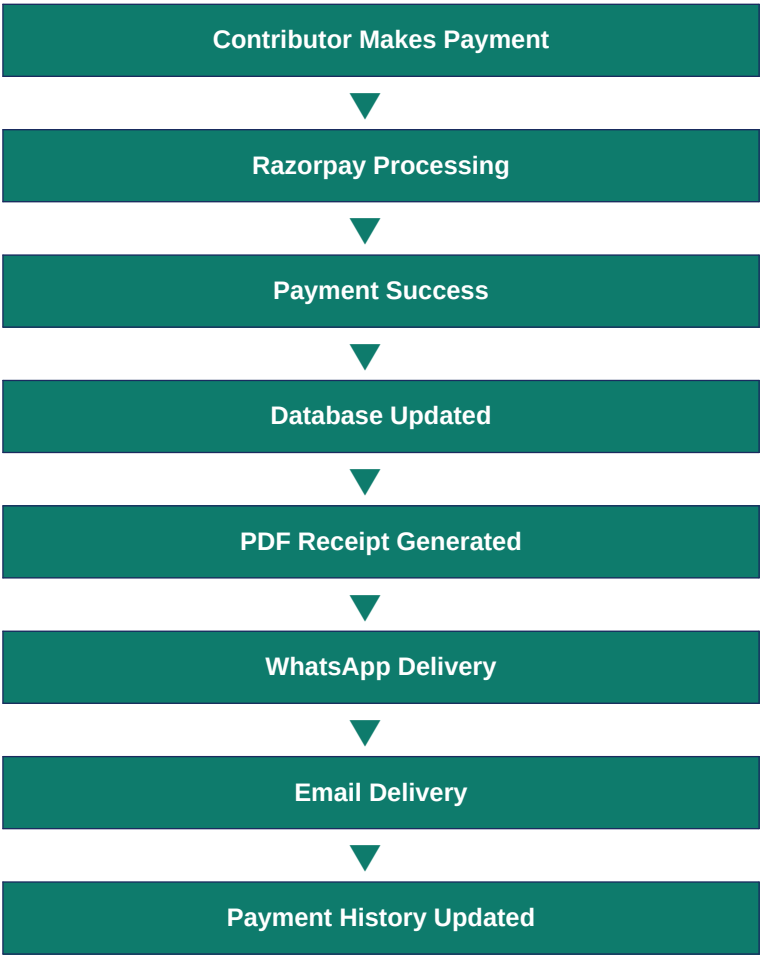

- View Monthly Contributions
- View Campaign Donations
- View Receipts
- Track Overdue Payments
- Export Reports (PDF / Excel)

10. Payment System & Workflow

Payment Gateway

Gateway	Razorpay
Monthly Contributions	Contributor commitment payments
Campaign Donations	Campaign-specific one-time or recurring donations

Payment Workflow

11. PDF Receipt System

Every successful payment automatically generates a branded PDF receipt.

Receipt Contents

- Contributor Name
- Amount Paid
- Date & Time
- Transaction ID
- Receipt Number
- Organisation Information

Receipt Delivery Channels

- In-App Payment History
- WhatsApp (automatic delivery)
- Email (automatic delivery)

12. WhatsApp Communication Center

A dedicated administrative communication module for managing all WhatsApp-based messaging.

Automated Messaging

- Contribution Reminders
- Payment Confirmations
- Receipt Delivery
- Volunteer Alerts
- Campaign Updates

Bulk Messaging — Audience Options

- All Contributors
- Active Contributors
- Paused Contributors
- Campaign Participants
- Volunteers

Message Templates

- Contribution Reminder
- Receipt Notification
- Campaign Update
- Emergency Appeal
- Volunteer Alert

Analytics & Logs

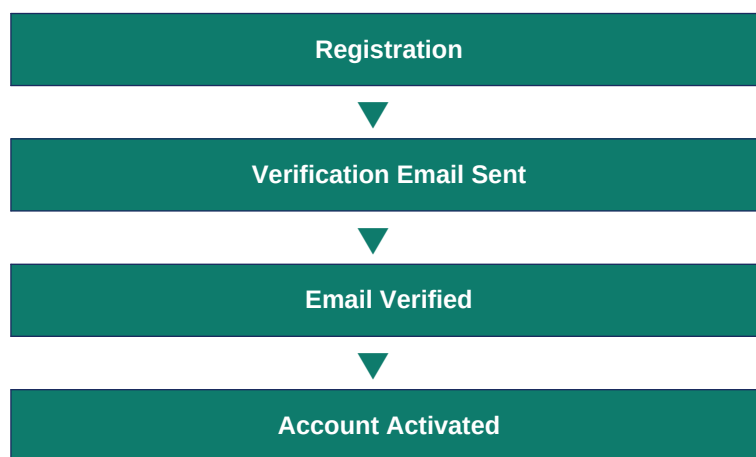

Metric	Description
Sent	Total messages dispatched
Delivered	Successfully delivered to recipients
Failed	Delivery failures with reason

Read Rate	Percentage of delivered messages opened
Engagement Rate	Interaction rate on campaign messages

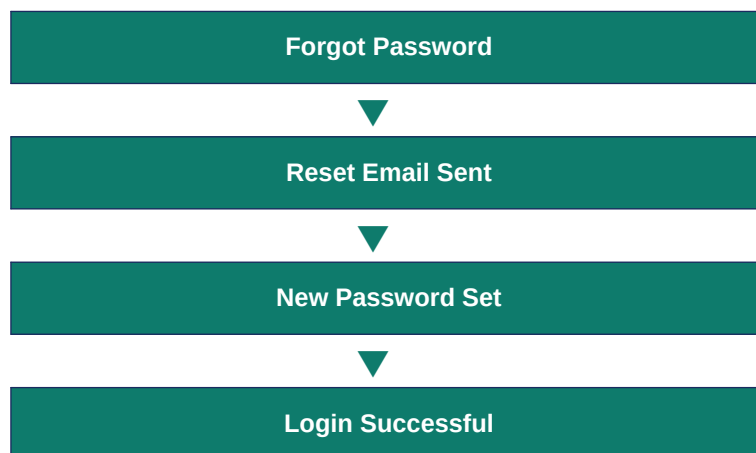

13. Email Automation System

Email functionality is fully automated. No separate email management dashboard is required.

Email Verification Flow

Password Recovery Flow

Automated Email Types

- Email Verification
- Password Reset
- Payment Receipts
- Contribution Reminders
- Campaign Updates

14. Notification System

Channel	Usage
In-App Notifications	Payments, reminders, system alerts within the app
WhatsApp Notifications	Receipts, reminders, campaign updates via WhatsApp
Email Notifications	Verification, receipts, reminders via email

15. Reports & Analytics

Available Reports

- Monthly Collection Reports
- Campaign Reports
- Volunteer Reports
- Contributor Reports
- Financial Reports
- Communication Reports

Export Options

- PDF Format
- Excel Format

16. Application Sitemap

The following pages illustrate the complete navigational structure and module hierarchy of the Kiranam application, organised by role and function.

Authentication	
Splash Screen	
Login	
Register	■ Full Name ■ Email Address ■ Mobile Number ■ Password
Forgot Password	
Email Verification	■ Backend process — no UI screen
Volunteer Approval Pending	■ Shown after volunteer application submitted

User Module	
Dashboard	■ Monthly Commitment Overview ■ Contribution Status ■ Next Due Date ■ Recent Contributions ■ Active Campaigns Preview ■ Notifications Preview ■ Quick Pay ■ Total Contributions ■ Campaign Contributions
Campaigns	■ Active Campaigns ■ Completed Campaigns ■ Campaign Details → Overview, Description, Target, Progress, Media Gallery, Donate
Payments	■ Payment History ■ Receipts ■ Transaction Details → Amount, TXN ID, Receipt Download, WhatsApp & Email Status

Notifications	■ Contribution Notifications ■ Campaign Notifications ■ System Notifications
Profile	■ Personal Information ■ Communication Preferences ■ Contribution Settings → Current Commitment, Update, Pause, Resume ■ Account Settings

Backend Services (Not Visible in UI)

Supabase Authentication	■ Email Verification ■ Login Authentication ■ Forgot Password ■ Password Reset
Supabase Edge Functions	■ Verify Payment ■ Generate PDF Receipt ■ Send WhatsApp Receipt ■ Send Email Receipt ■ Contribution Reminder Scheduler ■ Campaign Broadcasts ■ Volunteer Approval ■ Referral Assignment ■ Analytics Updates
Resend Email Service	■ Verification Emails ■ Password Reset Emails ■ Payment Receipt Emails ■ Contribution Reminder Emails ■ Campaign Update Emails
Razorpay	■ Monthly Contributions ■ Campaign Donations ■ Payment Webhooks
PDF Receipt Generator	■ Generate Receipt ■ Store Receipt ■ Send to WhatsApp ■ Send to Email
Notification Engine	■ In-App Notifications ■ WhatsApp Notifications ■ Email Notifications

17. Estimated Screen Count

Module	Estimated Screens
Contributor Module	10 – 12 Screens
Volunteer Module	8 – 10 Screens
Admin Module	12 – 15 Screens
WhatsApp Communication Center	5 – 7 Screens
Estimated Total	35 – 45 Screens / Views

18. Project Deliverables

- Complete Mobile Application (iOS & Android)
- Contributor Module
- Volunteer Module
- Admin Module
- Referral System
- Campaign Management
- Razorpay Integration
- PDF Receipt Automation
- WhatsApp Communication Center
- Email Automation
- Reports & Analytics
- Notification System

19. Estimated Project Cost

Rs. 60,000

Estimated Total Project Cost

Scope Includes

- Complete Mobile Application
- Contributor Features
- Volunteer Features
- Admin Features
- Campaign Management
- Referral System
- Razorpay Integration
- PDF Receipt Automation
- WhatsApp Communication Center
- Email Automation
- Push & In-App Notifications
- Reports & Analytics

This document represents the complete functional specification for the Kiranam platform. All features, modules, and integrations described herein are included within the stated project scope.
